## NIFTY FUTURES

"For last three trading sessions, it appears that it is defending its 50-day exponential moving average (11,659) at least on a closing basis which has resulted in a flat close, hinting at stability, Now till it holds below 11,761, restricted upside could be seen in the market while a hold below 11,666 could open the decline towards 11,600 then 11,550".

## BANK NIFTY FUTURES

Bank Nifty failed to surpass 30,700 and drifted towards its crucial support of 30,250. It has been respecting its 5-DEMA from last three trading sessions but a follow up is missing near resistance zones. The index closed at 30,362.10, up 11.10 points. "Now, till it remains below 30,600-30,700, weakness could persist while a drift below 30,250 could open the further decline towards 30,000 then 29,850.
